

COMPANY OVERVIEW

MadePartners is a leading provider of Quality Management Services providing tailored process and product focused support solutions.

Our expertise ranges from developing and implementing quality management systems (including ISO9001 Gap Analysis) to verification of product technical compliance (from design through manufacture and delivery to end of warranty) and Certification Readiness.

The MadePartners model combines the broad backgrounds of our principals, who have extensive quality management and project management experience in the defence, aviation, rail, mining, and infrastructure sectors.
