

Company Overview

Watertight Group is an Australian family owned company with a genesis dating back to 1993.

Watertight provide:

- a fully integrated plumbing asset maintenance and management service for planned and preventative maintenance needs and reactive plumbing requirements 24/7/ 365 days a year
- specialist drainage services - sustainable renewals through pipe bursting, installations for water, sewer and stormwater for Tier 1 companies
- Specialist roofing services across all roof and guttering from maintenance through to replacements
- Other specialist services including Non Destructive Digging and under road boring.

Watertight has offices in Sydney and Gold Coast. With 40+ direct employees. Watertight works across NSW, ACT and QLD with a mix of direct employees and a trusted supplier network. All with Police and Working with Children Checks.

Watertight is easy to work with. With Watertight's team ready to assist your business with its facilities management and maintenance needs and specialise in providing these services to Government, Defence, Education, Health, Commercial, Industrial and Strata sites.

Our systems, technology and reporting allows customers to have real time intelligence on the performance of assets through strategic asset management ensuring value for money.

Watertight is already working in Defence for DHA, Science and Technology Group, Honeywell. Watertight is Avetta pre approved. Watertight is committed to Veterans employment and currently employs one veteran and another current reservist.

Watertight has a specialist workforce, modern fleet and invest in machinery, equipment and systems. All staff are highly trained, wear consistent uniforms, have police and working with children checks. All equipment and vehicles are GPS tracked and monitored. All work is completed on l pads and can interface to client systems real time to update maintenance details and completion of work orders with appropriate photos and support information. Reports and interfacing with clients can be tailored as we have programming staff in Sydney available to meet clients every need. We have won an award from Workcover for the Best Safety System in NSW.
