

## Company Overview

We help businesses with high value, tangible assets execute cost-effective and sustainable maintenance strategies. We are top tier quality maintenance professionals with over 200 years of combined experience. Our primary skill-set is SAP Plant Maintenance Master Data construction and Governance, which we are currently in the process of constructing for a large Defence ERP program.

## Competitive Discriminators

Our SAP Master Data experts began their careers as the end-user, making their way through supervisory, planning & scheduling roles before taking a more active interest in SAP. It is this grassroots knowledge that enables our team to have a much better understanding of the functional requirement.
