

Company Overview

Penske Australia is a leading supplier of the world’s finest power systems, heavy-duty marine diesel, truck diesel, and gas engines.

Distributing high-speed diesel engines including *mtu* and Detroit, as well as the Sauer Compressors and Allison Transmission brands, we operate across the most dynamic markets including defence and various off-highway industries such as mining, power generation, construction and industrial, rail, marine, oil and gas, agriculture, and on-highway.

With over 950 employees, we are committed to providing the most comprehensive 24/7 support through a network of strategically located branches and field locations including the Hunter Valley.
