Red Insight Pty Ltd

Company Overview	Competitive Discriminators	
Red Insight Pty Ltd is a privately-owned Company based in Maitland NSW, established in 2014 to assist organizations in meeting their Work Health and Safety (WHS) obligations and preventing harm to people.	Our Consultants provide a solution-focused practical application to Risk Management with a people-based approach – an approach which led our Operations Manager to win the WHS Champion of the Year 2017 and our Principal WHS Specialist being a Finalist in 2018 at the Hunter Safety Awardsthese awards we are now proud to sponsor. We pride ourselves in tailoring solutions to be specific to the work and our Business Partners. For example, the WhereAreYou? program designed by our team to educate self responsibility and awareness. With a combined over 75 years' experience in a variety of High-Risk Industries, including over 55 years in the Health and Safety field, Red Insight Pty Ltd can provide services aimed to assist in protecting your people and your organisation.	
Red Insight Pty Ltd can offer professional WHS Specialists each with extensive experience, adding value to your organization, helping to reduce levels of risk, overcoming the complexity of Legislative requirements and ultimately, protecting your people.		
With a broad range of Workplace Health and Safety (WHS) advice, our pro-active, practical, and consultative approach will assist your organization in identifying and implementing Risk Based Solutions and meeting legal requirements.
