

Company Overview

Eifers are the experts in time-critical civil construction works, with a specialised focus on rapid deployment concrete technologies. Founded by the Eifermann family in 2003 Eifers grew from a small business base to a company focused on civil construction and critical infrastructure works. Eifers stands apart by being the experts in time-critical concrete, providing services to public and private sector clients across industries and environments including airports, roads, rail, urban development and utility infrastructure. Eifers utilises materiality, machines and methodologies to complete works faster and safer, giving clients value for money results.

Competitive Discriminators

Eifers' expertise reduces on-site time to alleviate disruptions and minimise OH&S risks, decreases overall project costs, and provides clients with the highest quality outcomes guaranteed. Our materiality, machines and methodologies save you time so that you can deliver your projects sooner. Eifers has extensive experience working across a range of industries for public and private sector clients. Our expertise in time-critical deployments makes Eifers a trusted and respected project partner.

Capabilities, Certifications & Accreditations

Eifers has extensive experience working across a range of industries for public and private sector clients. Airfield, rail, roads, critical infrastructure, urban landscapes, expedient pavements and civil engineering are among the primary sectors in which we have undertaken and completed major projects. Our expertise in time-critical deployments makes Eifers a trusted and respected project partner across these sectors and industries.
